

WHY EUROPE

- Europe, second smallest of the world's continents, composed of the westward-projecting peninsulas of Eurasia and occupying nearly one-fifteenth of the world's total land area.
- It is bordered on the north by the Arctic Ocean, on the west by the Atlantic Ocean, and on the south (west to east) by the Mediterranean Sea, the Black Sea, the Kuma-Manych Depression, and the Caspian Sea.
- Europe has been one of the most popular and livable continents for ages. It also has a long and proud history of providing world-class education through some of the oldest and prestigious universities in the world.
- One of the major benefits of studying in Europe is that you can choose from a wide variety of courses. The courses vary in duration and also have a different fee structure that varies widely based on the country and the university that you pick to pursue it from.
- Studying in Europe will give you more than just a brilliant education. When you study overseas you can pick up a language and immerse yourself in local cultures so rich that you will want to come back to experience more.

- Universities guarantee to provide you with the European experience you are looking for with all the advantages of studying abroad. Students can expect the highest quality of teaching by dedicated tutors.
- For most students, this time may be the only opportunity they ever get to travel abroad for a long period of time. Eventually you will find a job and career, and the opportunity to study abroad may turn out to be a once in a life time opportunity.

Europe has 8 of the world's 10 happiest countries

FINLAND, DENMARK, ICELAND, SWEDEN, NETHERLAND,
NORWAY, LUXEMBOURG AND SWITZERLAND

The difference in the education system between India and Europe

Practical oriented learning

Qualified teachers

Updated curriculums

Placements After Completion of Courses

Most modern infrastructure

Bologna system

- ❖ In the European universities, the professors are highly qualified. They carry multiple PHD and also they have 20 to 25 years of experience in their industries, They have great connection with all these industries in the Europe. So you should advice the student to build a good rapport with the faculties, because they are also recommending students to these industries. During the interview at the embassy they will ask," why you want to study at abroad, why not India? These are the real reasons they student should said to the interviewer.

- ❖ The class room ratio in Europe is 20:1. So that the faculty can individually analysis each and every student for the upgrade of their career. That is why the have kept this small batch.

- ❖ Every student can do part time job of 20 hour per week and they are the European legal law, the student supposed to get at least 9 euro per hour. They are getting more than 9 euro in the Nordic region. In eastern region countries like Lithuania, Latvia and Estonia they are earning little less ,6 - 8 euros per hour. In France and all they are earning 1300 euros and more than that. During summer/ winter vacation, they can do full time job.

- ❖ Latest country in Europe: Croatia
- ❖ Spouse visa- Sweden and Finland and Denmark
- ❖ Schengen visa: Student will be having access to 27 Schengen countries. No mobility restrictions.

Europe is a hub of many renowned corporates
